

BEAM *Mundo*

A High Efficiency motor is at the heart of every BEAM *Mundo* system. HE motors offer higher performance using 30% less energy than the traditional central vacuum system motor.

BM265

Model:	BM265
Voltage	230 V / 240 V
Airwatts	605
Airflow (l/s)	56
Waterlift (mm)	2920
Motor	HE Flow-Thru
Max. Input Watts (W)	1800
Nom. Input Watts (W)	1600
Size (w x h)	28 cm X 54 cm
Features:	
Sound Level Piped (ASTM, IEC)	76 dB
Filtration	23L Paper Bag Filtration

Distributed by:

BEAM
Electrolux

Sound-Off Muffler

Significantly reduces motor noise able to vacuum without waking up the neighbourhood.

HE Flow-Thru Motor

High Efficiency thru-flow motor uses 30% less energy than the standard by-pass motors commonly used in large body central vacuums.

Durable Steel Body

Able to last the lifetime of the power unit.

Short body unit with strong motor performance ideal for apartments, condos and small homes. Operates with a large paper filtration bag requiring less frequent emptying.
